An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Update the continuing data in the specification by inserting, "now U.S. Patent No. 6,800,586" prior to the period.

The following is an examiner's statement of reasons for allowance:

The examiner has withdrawn the provisional obviousness-type double patenting rejection over application Serial No. 10/763,812 because the instant claims require a critical ratio of ceria to an oxide of another lanthanide element that is not claimed in the copending application.

The obviousness-type double patenting rejection over U.S. Patent No. 6,800,586 is withdrawn in view of the terminal disclaimer filed November 23, 2005. The examiner notes that the terminal disclaimer was filed over the application from which P.N. 6,800,586 derived. However, since the final effect of the disclaimer is the same, this procedural error is waived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.
